Massachusetts
Youth Health Survey

Sponsored by:
Massachusetts Department of Public Health
and
Massachusetts Department of Elementary and Secondary Education

Conducted by:
Center for Survey Research
University of Massachusetts Boston

Winter 2015

Before you begin, there are a few important things you need to know.

• Your answers are completely anonymous. There are no markings anywhere on the questionnaire that allows you to be identified. Please do not place your name or any other personal information on the questionnaire. Your answers will be combined with other answers for statistical analysis.
• The purpose of the survey is to gather information from school students in Massachusetts about health topics such as the use of tobacco, alcohol and drugs, in and out of school activities, diet and exercise and coping with stress. This information will be used to better understand the concerns and health practices of current students.
• It is important that you answer each question as honestly and accurately as you can.
• If there is any question that you would prefer not to answer, please just skip that question and go on to the next question.
• Your participation is, of course, voluntary. If you find the survey upsetting, you may stop answering the questions.
• Answer each question by filling in the circles like this: Incorrect marks: ☒☒☒☒ Correct mark: ●
  You must use a number 2 pencil.
• Arrows (➡️) will direct you to answer follow-up questions or to skip over certain questions.
• When you are finished with the survey, simply place it in the box located at the front of the class.
• Your participation is greatly appreciated, as this is one of the only ways for students like yourself to anonymously report on health issues that may concern you.

Thank you for your time and cooperation.
