Introduction

In February and March 2015, Partners for a Healthier Community led the implementation of the Youth Risk Behavior Survey (YRBS) to tenth and twelfth graders enrolled in Springfield Public Schools. This survey was administered in collaboration with Springfield Public Schools, Springfield Department of Health and Human Services, Gandara Mental Health Center, Stop Access Springfield Coalition, Martin Luther King Jr. Family Services Drug Free Coalition and with the support of many volunteers from the community and other local agencies.

This anonymous survey asks about drug, alcohol, and tobacco use, sexual behaviors and sexual education, diet, physical activity, violence, bullying, mental health, and other health-related topics. It is important to remember that all of this information was anonymous and self-reported by the students.

Response rate estimate: 47% among 10th graders (847/1806)
54% among 12th graders (700/1299)

Please Note: Students who did not provide a grade-level or provided one other than 10th or 12th grade were not included in the calculation of response rates nor were their responses included in the report below.
