

IT ALL STARTS WITH ME

# MY HEALTH DOES MATTER

**Getting a COVID-19 vaccine is a personal choice. We know you have questions, and that is normal! Here are a few things to consider when making the decision for you and your family:**

1. The vaccine is free & free transportation is available.
2. Getting vaccinated can protect you and your loved ones.
3. These vaccinations are our best chance to end the pandemic & return to the life we enjoy.
4. More than 185 million people in the US are fully vaccinated!
5. Vaccines are available for children 5+ years old.
6. A safety board approved every study, and the FDA carefully reviewed the data from every phase of every vaccine trial. Safety continues to be monitored.
7. Participants in vaccine trials were diverse to assess safety & effectiveness in all populations & among people with various chronic health conditions.
8. Booster shots are available for certain individuals to help maintain immunity.
